### EDUCATIONAL COLUMN

Edited by Miss Emma Numan.  
They who know Prof. Colvin as an institute instructor will be delighted, yet not surprised to hear that he has been elected to conduct the Louisville Institute of 1912. He conducted an institute there last week which was held, but very interesting.

Miss Pearl Hickerson, Regina Radd and other teachers in the County had house and yard cleaning last week. This is a step towards organizing the School Improvement League, for doubtless their pupils' and many of their patrons' interest in improvements have been aroused by this small beginning. They understand the secret of success—interest begets interest.

Of course every citizen of Washington county is anxious that our schools shall be second to none in the State, and there second to none in the county. The best means at present of making them so is the School Improvement League which all hope will be organized in every district within the next month or so. At present many of our school houses are such that some of our good citizens would not use them for stock barns and yet, that most precious of all assets, his child is permitted to spend the greater part of the day within its narrow walls. A far wiser and nobler investment would be to have comfortable, attractive schools and smaller barns if necessary. After all dollars and cents do not count for as much as people are inclined to believe—the best legacy a fond parent can leave his child is a properly developed mind and body. This condition of matters is not due to a perverted love and interest but to thoughtlessness; there is not a citizen in the county but will welcome the opportunity of making ours the most attractive and best of schools, and their children the best of children who know and dare to do the right—a much needed element in Kentucky's politics.

**Thirty Years Together**  
Thirty years of association—think of it. How the merit of a good thing stands out in that time—how the goodness of a bad one. So there's no guesswork in this evidence of Thos. Arles, Concord, Rich., who writes: "I have used Dr. King's New Discovery for thirty years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't get it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Useful for the grippe, asthma, any fever, croup, quincy or sore lungs. Price 50c. 450. Little bottle free. Guaranteed by Hays & Robinson.

### It Grows Hair

Here's Some Important News for Men Who are Growing Bald.

People who have taken our word for it that Parisian Sage is the best hair grower, beautifier and dandruff cure have never been disappointed. Here's the word of a person who took our word.

"I have been using Parisian Sage about a year. When I began using it I had only a light 'fuzz' on my head. Now I have a good thick growth, and it is growing thicker and longer right along. Many people don't believe it can be done, but I know from my own experience with Parisian Sage that it can. I can recommend it in the fullest confidence.—Gaines Brown, 708 North Filmore St., Maryville, Mo.

The above statement was made to Dr. D. Koch of the Koch Pharmacy Maryville, Mo., April 25, 1911. Large bottle 60 cents at Hayden & Willett's and druggists everywhere.

### HERE IS LEARNED GENDARME

M. Vauthier, in the French Service, Was Gained Much Fame as an Archivist.

M. Vauthier is a gendarme attached to the Givet brigade in the Ardennes. He has done his military service in Algeria, says the Paris correspondent of the London Telegraph, and has been in the Republican Guard, and he is himself appointed to Givet in order that he might have more opportunity of prosecuting his historical researches in his native district, as that branch of study has been rather neglected in the Ardennes.

For M. Vauthier is no ordinary gendarme. He is an enthusiastic archivist, and his zeal and merit have been duly recognized, not only by the military public education, but by the civil, while he has been warmly complimented by several embassies for notes which he has been able to furnish to them.

His researches in the Ardennes have chiefly borne on the periods of the revolution, the empire, and the restoration, and, among many other matters, on the depot of English prisoners of war established at Givet by Napoleon, and on the Russian occupation of that district after 1815.

M. Vauthier will soon be retiring on a pension, and then he will be able to devote all his time to his favorite pursuit. "I love," he says, "always had a hobby for hunting for documents, though it is often more trying than hunting for silver."

### WOULD SAVE SWISS SCENERY

League Asks the Government Not to Grant Concessions for Any More Alpine Railways.

The Swiss Scenery Preservation society has presented to the government a memorial urgently calling upon it not to grant concessions for any more Alpine railways. Of late a strong feeling has arisen among the more thoughtful and intelligent Swiss that their country has already been sufficiently exploited. Many beautiful passes and minor summits have been disrupted by overhead electric railways or beautified by smoking chimneys, yet concessions for fresh mountain railways do not cease to be demanded. Quite recently as many as fourteen were before the government at one time.

What has now aroused the Swiss Scenery Preservation society to energetic protest is the demand recently addressed to the government for a concession for a cogwheel line from a branch line from Brochet to Garmisch, via Brochet, to Soust, with a branch line from Brochet to Garmisch (Garmisch-Rochers de Naye); that the new line would logically disfigure a beautiful piece of Alpine scenery, and that it is not justified by the circumstances of the surrounding district.

### London Through the Ages

It is proposed to establish in the British metropolis a museum to be devoted to the exhibition of relics from the earliest times of its occupation by man. These times run back much farther than most readers are aware. The city that Julius Caesar found occupied a site which had been inhabited for unnumbered thousands of years. It is now known that during Paleolithic and Neolithic times—the two great divisions of the stone age—man dwelt on the site of London, but it first became the settlement of a community at the opening of the historic age, when it was a walled city of the Celts. The remains of its Roman period are the finest of the kind in Britain. The Anglo-Saxon Danish period are also well represented, and even later periods, such as the Tudor, furnish relics that have been buried by that strange process of superincumbent growth which makes the soil under a great city resemble the petrified strata of geology.—Youth's Companion.

### Big Game

Larry Covington of the Philadelphia Evening Times, was in the city, says the New York Morning Telegraph. While in a Broadway cafe Mr. Covington was telling of a trip he once took to Savannah, Ga., with some friends.

"We decided to go out to Mr. Bannon's big lodge for supper," he said. "We chartered an old one-gunner back driven by a negro. The driver was a knowing old fellow and pointed out to us all the places of interest along the route."

"We were nearing Mr. Bannon's place, which is six miles from Savannah, a squirrel appeared in the road."

"Gee," he said, "after we had all noticed the squirrel, do you have any big game around here?"

"Yes, indeed," replied the driver. "We have brought."

The Latest Fad.  
"Some society women have been eating the 'red' velvet wafers."

"How very interesting! You may put me down as a patroness whenever they have another strike."—Exchange.

### BRILLIANT PLAYER RETURNS TO GAME

"Nap" LaJoie, Who Was Put Out of the Game Early in the Season on Account of Injuries.

### SHE HAD FIRST INSPIRATION

Excellent Reason Why Mr. B.—Could Not Realize Money on His Wife's Jewelry.

Mr. B.—drove up in a hansom and entered the jeweler's shop, accompanied by his valet, who carried an oblong box of steel. Mr. B.—asked for a private interview, and, on being shown into the office, he opened the box, exposing a splendid array of diamonds and pearl necklaces, ear-rings, bracelets and rings.

"Mrs. B.—," he said, "is now abroad before she returns I want you to extract these stones and replace them with good imitations, selling the real jewels, and giving me the money. This, of course, is to be a confidential transaction. Mrs. B.—is to know nothing of it."

"My dear sir," said the jeweler, "I should be glad to do as you ask, but it is impossible. Two years ago Mrs. B.—called her on the same errand that now brings you, and this errand, in her case, was successful. The plate jewels that you offer me are worth little more than the hire of the hansom awaiting you outside."

**BEE CAUSED MOTOR WRECK**  
Sting of Pugnacious Insect Caused Driver to Lose His Control of the Steering Gear.

While motor car driving along Saybrook road at a rapid gait the other side of a little box lighted on the nose of George Steele, son of William Steele, a wealthy resident of Brookline, Mass., who has his summer home at Essex, Conn. He involuntarily took both hands from the steering wheel, and the car bounded across a ditch near the residence of Henry Gladwin of Guilford, breaking the axle beneath it.

Steele was badly hurt, several stitches being required to close a gash in one of his thighs, and he was covered with minor cuts and scratches. Though dazed and unable to get up, he recovered sufficiently at his home to talk about the peculiar accident. He cannot understand how the bee came in peace with him long enough to alight, and how it stuck so tenaciously, as he was travelling at a fast pace. The car was only slightly damaged.

**Cold Comfort From Mortar.**  
The coldest place on a hot summer day is not on a roof garden, or in a subcellar or on the deck of a steamer, or upon some beach swept by ocean breezes. It is at the entrance of the uncompleted building where the mortar has been laid but has not yet set.

The architect came out of his office in cool, damp and pleasantly suggestive of the heart of a stone quarry or a cavern grove. In preparation for the secret of it, all but why is it that other evaporation is not so efficacious, so pleasant?

**Test.**  
The narrative of one of the passengers from the dayliner of the Birmingham Daily Mail, contains this passage: "The baggage master donated a special prize. He had only been asleep a couple of hours when called up, but he arranged the baggage in conformity that not a piece was lost save such as belonged to the 'steerage' passengers."

**A Truly Brisk Touch.**  
To a steersman passenger, who has little enough to begin with, the loss of the bag is, of course, nothing.

**More Blunder Bricks.**  
Blondies in Philadelphia have just three times as many chances to be married as have brunettes, according to the records kept at the House of Records. During the last year the clerks have kept careful tab on the number of women applicants for licenses and Robert R. Ferguson, chief clerk, announced that in 19,000 of 17,000 cases where marriage licenses had been issued, the brides had light hair. The clerks in the divorce courts have now been directed to keep a similar record to ascertain whether blondes or brunettes are the more successful.

One of the prettiest social af-  
fairs that has been enjoyed by  
the young people of Springfield  
for some time was the lawn fete  
and party given by Mrs. Mary  
Durrett and Mrs. Morris, at their  
beautiful home a short distance  
from town in honor of Misses  
Ida and Maud Cox, of Versailles  
and Miss Jennie Durrett, of  
Bloomfield. Quite a large num-  
ber of the young people of town  
and county were invited and  
those who were so fortunate as  
to receive such a compliment  
were highly pleased to have an  
opportunity to enjoy an evening  
with such host and hostess as  
Mrs. Durrett and Morris.

Spring was furnished by the  
Springfield Orchestra and dan-  
cing was very much indulged in.

by those who like to trip the light  
fantastic. Each one present en-  
joyed the evening as only young  
people can and at the time de-  
part expressed their pleasure to  
the host and hostess and paying  
many compliments to the charm-  
ing bopora of the evening.

**The Fair**  
The annual Washington county  
fair opened yesterday with a  
large attendance. Quite a num-  
ber of good horses are on the  
ground and everything points to  
another successful fair.

**The Circus.**  
Fangers Combined shows ex-  
hibited here Monday. The show  
consisted of a circus, a menag-  
erie and the usual number of  
side shows. The exhibitions  
were creditable and a very large  
crowd was in attendance.

**Ribs Broken**  
Mr. R. C. Dublitt had some-  
what dangerous experience a few  
days while moving the baggage  
of the show people who have  
been recently exhibiting at the  
Opera House. He was endeavor-  
ing to pull a trunk down the  
stairs when it slipped upon him  
and both he and the trunk landed  
at the bottom of the steps the  
trunk falling on him, severely  
bruising him and breaking two  
ribs. However he is again well  
on the road recovery.

**A Chance For The Pen**  
The breaking into the harness  
shop of Mr. Geo. J. Begeman on  
last Tuesday night, will give  
somebody a free pass to Frank-  
fort, if the offenders can be  
found and their guilt proven.

The building was broken into  
and also the cash drawer, but  
they failed to get any money as  
Mr. Begeman had deposited all  
the money the day before. An  
attempt was also made to enter  
the safe but this however was  
unsuccessful.

**Kicked By Horse**  
An accident that was for some  
time thought to be very serious  
happened to Bryan Yankey, the  
14 year old son of Mr. J. D.  
Yankey, near Macville. The  
boy was riding a young filly and  
when near the Heech Grove  
school house, the animal was  
frightened and threw him to the  
ground kicking him on the head  
just above the ear, and then ran.  
The young man in an uncon-  
scious condition was taken to  
his home where his injuries were  
treated by Drs. Barnett and Gab-  
bart, who while they found him  
quite seriously hurt, yet his in-  
juries were such that he will re-  
cover in a short time.

**Quarterly Court.**  
Monday, in addition to being  
Circuit day was also Quarterly  
Court. Several cases were  
called and default judgments  
taken. No cases of any conse-  
quence were tried. In one case  
in which the parties were re-  
presented by attorneys Lewis and  
Grigsby respectively, there was  
something of a contest not how-  
ever as to the merits of the case,  
but as to the charges, Mr. Grigsby  
announced ready for his clients,  
however while we believe that  
Mr. Grigsby represented his  
clients case, strictly speaking  
yet we are inclined to believe that  
Mr. Lewis the opposing lawyer,  
better represented his wishes in  
this instance, for when Mr.  
Lewis was called on as to what  
he had to say in behalf of his  
client said it was circuit day and  
he thought the case ought to be  
set for some other day as the  
lawyers and court wanted to at-  
tend the show. Mr. Grigsby op-  
posed this but Mr. Lewis said it  
would be unbecoming to punish a  
jury and Mr. Grigsby's client by  
keeping them in the Court House  
as it was nearly time for the pa-  
rade. Mr. Lewis evidently sat-  
isfied the court of the justice of  
his contention as he continued the  
case. So if ever such a  
question arises again we will  
have a precedent to be guided by.  
Court being adjourned Mr. Lewis  
is the court attended the  
show and Fred was there too,  
to take his boy.

**Connor.**  
The community was considera-  
bly "shocked" when it became  
known on last Friday that Mr.  
Joseph R. Connor had died at  
his home here. Mr. Connor had
